MAY/JUNE 2006

From Tankless Water Heaters to Garage Organization Systems, Here Are the Top 100 Products Readers Want to Know More About

PLUS High-Class Closets, Lithium-Ion Tools, and Much More

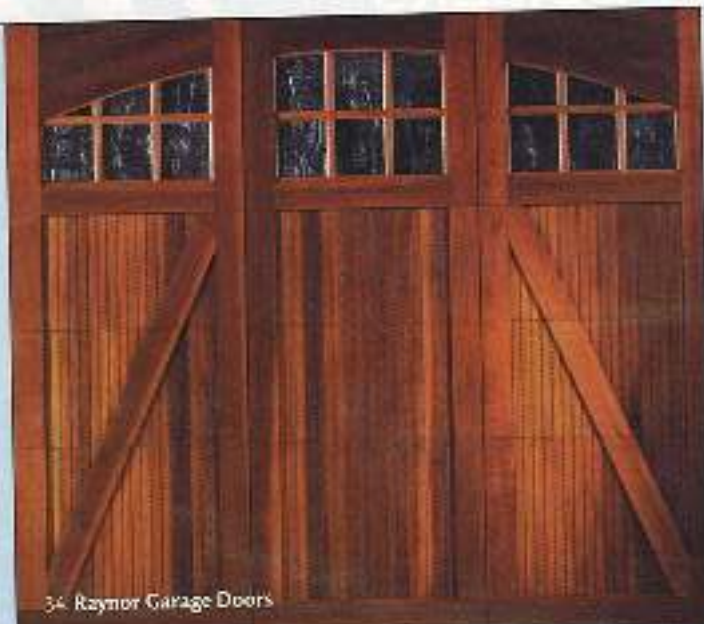

31 Genesis Homes. In conjunction with *Country Living* magazine, the firm created this house in 12 weeks. The 2005 Country Living Home of the Year features brand-name appliances, fixtures, and more, according to the maker. There is no visible difference between this home and site-built structures, the manufacturer says. Many floor plans are available nationwide. 866-241-2230. www.genishomes.com. Circle 231.

32 GarageTek. The patented, UL-listed, and Class A fire-rated TekPanel wall system allows a variety of storage elements to attach to it. Specially engineered clips evenly distribute the weight of each storage element on the 1-foot-by-10-foot tongue-and-groove panels. Storage accessories include activity racks, shelving, large storage chests, wall cabinets, tall floor cabinets, tool brackets, baskets, and utility hooks. Workbenches and flooring materials also are part of the system, which is backed by a 10-year warranty. 866-664-2724. www.garagetek.com. Circle 232.

33 Woodport Interior Doors. Select and knotty alder are available on the manufacturer's collection of interior wood stile-and-rail doors including two-panel arch- and square-top styles as well as traditional raised- and flat-panel designs. Imported vertical-grain clear and knotty pine come in raised-panel, V-groove, and French glass interior doors. 715-526-2146. www.woodport.com. Circle 233.

34 Raynor Garage Doors. Inspired by the heritage of custom-made carriage doors, the American Rivers collection offers four distinct models, including the Potomac (shown). The doors are built around a solid 1 3/8-inch-thick Douglas fir frame with a Western red cedar surface material. Several decorative hardware options are available, as are several window designs. 800-672-9667. www.raynor.com. Circle 234.

35 Atlantis Energy Systems. Sunslates are made by attaching modules to the exposed area of fiber-cement roofing shingles, making the resulting roof look much like a regular roof, the manufacturer says. Sunslates are compatible with tile, shake, metal, and composite roofs, according to the firm. The exposed area of the slates is 11 3/4 inches by 15 3/4 inches. 916-438-2930. www.atlantisenergy.org. Circle 235.
